

7-9-09 Meeting Notes

In attendance: Mike (who drove from Kennesaw and adds new energy and talents to our group), Randy Rick, Bob Quigley, Tim Herrin, Larry Winslett, Ginger Clark, Kristen Jordan, Sarah Osicka, Bryan Sorohan, Judy Toppins, Bob Billings, and Forest Hilyer

We discussed adding several additional pieces of information to our web site, MySpace, and rack card flyers:

- "Please no Glass"
- GPS coordinates for the festival
- link, logo and/or promo for Treesound Studios
- the idea that our sound system will be powered by wind and solar
- We may also want to promote the idea of bringing your own re-usable dishes as we will have a wash station set up.

We also discussed transferring the video tapes of past years' festivals to **Bryan Sorohan** asap so he can digitize them (**Tom? Murray?**). **Tim Herrin** said he would try his hand at editing them once they are digitized. Our videographer (**Heavenly Littleton**) will not be able to make it this year, so we are on the lookout for others who are interested. It has been suggested that college students familiar with this art be used (**Kristen**, are you still exploring this?)
